

Policy Name	E Safety, Acceptable Use and Prevent Policy
Author	Steve Graham
Date	January 2023
Review Date	January 2025

Mission

Learning is for everyone (LIFE) is our pledge and through working together to teach children and young people in a safe, orderly, and supportively challenging environment, inspiring them to learn, excel and grow to be proud of their achievements

Vision

Old Farm School aims to provide a transparent and consistent approach to supporting pupils identified as having additional educational needs in the city.

Values

- A safe and orderly school environment for all
- A focus on all children and young people
- The offer of a curriculum to engage, stimulate, support and challenge
- Empowering Leadership all levels and permeate the need for Teamwork throughout Old Farm School and all partners we work with
- All Our partners Satisfaction and Support

Roles and Responsibilities

The Director:

The Director is responsible for the approval of the E-Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Director receiving regular information about e-safety incidents and monitoring reports. The role of the E-Safety Director will include:

- regular meetings with the E-Safety Co-ordinator
- regular monitoring of e-safety incident logs
- regular monitoring of filtering / change control logs

The E- Safety co-ordinator is Mr Steve Graham Head Teacher

The safeguarding lead Mr Michael Coldwell

The designated teachers for child protection are Mr Michael Coldwell Deputy Headteacher and Mrs Emma Overy-Gibson Assistant Head Teacher.

Safeguarding Director is Mr Bill Ashton

Headteacher:

The Headteacher is responsible for ensuring the safety (including e-safety) of members of the school community, though the day to day responsibility for e-safety will be delegated to the E-Safety Co-ordinator.

The Headteacher and Director are responsible for ensuring that relevant staff receive suitable CPD to enable them to carry out their e-safety roles and to train other colleagues, as relevant

The Headteacher will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal e-safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.

The Headteacher and Director should be aware of the procedures to be followed in the event of a serious e-safety allegation being made against a member of staff.

E-Safety Co-ordinator:

- takes day to day responsibility for e-safety issues and has a leading role in establishing and reviewing the school e safety policies/documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an e-safety incident taking place.
- provides training and advice for staff
- liaises with school ICT technical staff
- receives reports of e-safety incidents and creates a log of incidents to inform future e-safety developments
- meets regularly with E-Safety Director to discuss current issues, review incident logs and filtering / change control logs
- attends relevant meeting / committee of Governors

Network Manager / Technical staff:

The ICT Technician / ICT Co-ordinator is responsible for ensuring:

- that the school's ICT infrastructure is secure and is not open to misuse or malicious attack
- that the school meets the e-safety technical requirements outlined in the Acceptable Usage Policy and guidance
- that users may only access the school's networks through a properly enforced password protection policy, in which passwords are regularly changed
- the school's filtering policy, is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person
- that he / she keeps up to date with e-safety technical information in order to effectively carry out their e-safety role and to inform and update others as relevant
- that the use of the network/ email is regularly monitored in order that any misuse/attempted misuse can be reported to the E-Safety Co-ordinator/Headteacher for investigation/action/ sanction
- that monitoring software/systems are implemented and updated as agreed in school policies

Teaching and Support Staff:

Teaching and support staff are responsible for ensuring that:

- they have an up to date awareness of e-safety matters and of the current school e-safety policy and practices
- they have read, understood and signed the school Staff Acceptable Use Policy (AUP)
- they report any suspected misuse or problem to the E-Safety Co-ordinator/Headteacher for investigation/action/ sanction
- digital communications with students/pupils (email/voice) should be on a professional level and only carried out using official school systems

- e-safety issues are embedded in all aspects of the curriculum and other school activities
- students/pupils understand and follow the school e-safety and acceptable use policy
- students/pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor ICT activity in lessons.
- they are aware of e-safety issues related to the use of mobile phones, cameras and hand held devices and that they monitor their use and implement current school policies with regard to these devices
- in lessons where internet use is pre-planned students/pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Designated person for child protection: Child protection person should be trained in e-safety issues and be aware of the potential for serious child protection issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate on-line contact with adults/strangers
- potential or actual incidents of grooming
- cyber-bullying

Students / pupils:

- are responsible for using the school ICT systems in accordance with the Student/Pupil Acceptable Use Policy, which they will be expected to sign before being given access to school systems.
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand school policies on the use of mobile phones, digital cameras and hand held devices. They should also know and understand school policies on the taking/use of images and on cyber-bullying.
- should understand the importance of adopting good e-safety practice when using digital technologies out of school and realise that the school's E-Safety Policy covers their actions out of school, if related to their membership of the school.

Parents / Carers:

Parents/Carers play a crucial role in ensuring that their children understand the need to use the internet/mobile devices in an appropriate way. Research shows that many parents and carers do not fully understand the issues and are less experienced in the use of ICT than their children. The school will therefore take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website and information about national/local e safety campaigns/literature. Parents and carers will be responsible for:

- endorsing (by signature) the Student/Pupil Acceptable Use Policy

- accessing the school website/pupil records in accordance with the relevant school Acceptable Use Policy.
- Community Users Community Users who access school ICT systems / website as part of the Extended School provision will be expected to sign a Community User AUP before being provided with access to school systems.

Radicalisation and the Use of Social Media to encourage extremism

The internet and the use of social media in particular has become a major way to communicate with others, especially young people, which has provided access for like-minded people to create an online community and confirm extreme beliefs such as extreme ideological views or the use of violence to solve problems. This has led to social media becoming a platform for:

- intensifying and accelerating the radicalisation of young people;
- confirming extreme beliefs;
 - accessing to likeminded people where they are not able to do this off-line, creating an online community;
- normalising abnormal views and behaviours, such as extreme ideological views or the use of violence to solve problems and address grievances.

Old Farm School has a number of measures in place to help prevent the use of Social Media for this purpose:

- Web site filtering is in place to help prevent access to terrorist and extremist material and social networking sites such as Facebook, Instagram or Twitter by Pupils
- Pupils, Parents and Staff are educated in safe use of Social Media and the risks posed by on-line activity, including from extremist and terrorist groups.

Further details on how social media is used to promote extremism and radicalisation can be found in guidance from the Department for Education: How Social Media Is Used to Encourage Travel To Syria And Iraq: Briefing Note For Schools.' Reporting of e-Safety issues and concerns including concerns regarding Radicalisation.

Old Farm School has clear reporting mechanisms in place, available for all users to report issues and concerns. For staff, any concerns regarding e-safety should be made to the e-safety officer (Michael Coldwell) who will review the issue and take the appropriate action.

For pupils, they are taught to raise any concerns to their key worker who will then pass this on to the e-safety officer. Complaints of a child protection nature must be dealt with in accordance with our child protection procedure. Our Designated Safeguarding Lead provides advice and support to other members of staff on protecting children from the risk of on-line radicalisation.

Old Farm School ensures staff understand what radicalisation and extremism mean and why people may be vulnerable to being drawn into terrorism. We ensure staff have the knowledge and confidence to identify children at risk of being drawn into terrorism, and to challenge extremist ideas which can be used to legitimise terrorism.

Staff safeguard and promote the welfare of children and know where and how to refer children and young people for further help as appropriate by making referrals as necessary to Channel.

Assessing Risks:

- We will take all reasonable precautions to prevent access to inappropriate material. However, due to the international scale and linked nature of internet content, it is not possible to guarantee that unsuitable material will never appear on a computer connected to the school network. The school cannot accept liability for any material accessed, or any consequences of Internet access.
- We will audit ICT use to establish if the e-Safety policy is sufficiently robust and that the implementation of the e-safety policy is appropriate and effective
- Methods to identify, assess and minimise risks will be reviewed regularly.
- Emerging technologies will be examined by the Head for educational benefit and a risk assessment will be carried out before use in school is allowed.
- Any person not directly employed by the school will not be provided with access to any of the school systems with the exception of filtered Wi-Fi access. Cyber-Bullying Cyberbullying is bullying using technology to threaten, embarrass or cause discomfort. Seven categories of cyberbullying have been identified:
 - Text message bullying involves sending unwelcome texts
 - Picture/video-clip bullying via mobile phone cameras with images or video clips usually sent to other people.
 - Phone call bullying via mobile phone uses silent calls or abusive messages. Sometimes the bullied person's phone is stolen and used to harass others, who then think the phone owner is responsible.
 - Email bullying often using a pseudonym for anonymity or using someone else's name to pin the blame on them.
 - Online grooming, Chat room and Social Networking Site abuse involves sending menacing or upsetting responses to pupils or young people.
 - Bullying through instant messaging (IM) is an Internet-based form of bullying where pupils and young people are sent unpleasant messages as they conduct real-time conversations online;
 - Bullying via websites includes the use of defamatory blogs (web logs), personal websites and online personal polling sites. There has also been a significant increase in social networking sites for young people, which can provide new opportunities for cyber-bullying ICT based sexual abuse.

The impact on a child of ICT based sexual abuse is similar to that for all sexually abused pupils. However, it has an additional dimension in that there is a visual record of the abuse. ICT based sexual abuse of a child constitutes significant harm through sexual and emotional abuse.

Recognition and response is recognising a situation where a child is suffering, or is likely to suffer a degree of physical, sexual and/or emotional harm (through abuse or neglect) which is so harmful that there needs to be compulsory intervention by child protection agencies into the life of the child and their family. All adults (volunteers, staff) working with pupils, adults and families will be alerted to the possibility that:

- A child may already have been/is being abused and the images distributed on the internet or by mobile telephone;
- An adult or older child may be grooming a child for sexual abuse, including involvement in making abusive images. This process can involve the child being shown abusive images;
- An adult or older child may be viewing and downloading child sexual abuse images.

Chat Room Grooming and Offline Abuse: Our staff will need to be continually alert to any suspicious activity involving computers and the Internet. Grooming of pupils online is a faster process than usual grooming, and totally anonymous. The abuser develops a special relationship with the child online (often adopting a false identity), which remains a secret to enable an offline meeting to occur in order for the abuser to harm the child.

Taking and Storing Images of children including Mobile Phones (See our related documents) Old Farm School provides an environment in which children, parents and staff are safe from images being recorded and inappropriately used in turn eliminating the following concerns. We therefore ask that staff are careful in their use of mobile phones as this can cause them being distracted from their work with children.

The safeguarding of children from inappropriate use of mobile phone cameras and other digital recording equipment. Old Farm School is committed to safeguarding and promoting the welfare of our pupils and expects all staff and volunteers to share this commitment. It is our aim that all pupils fulfil their potential.

- the commitment to keep the children safe;
- how we manage the use of mobile phones at Old Farm School taking into consideration staff, pupils on placement, volunteers, other professionals, board members, visitors and parents/carers;
- how we inform parents/carers, visitors and other professional of our procedures;
- what type of mobile phones will be used on educational visits and learning outside the classroom;
- The consequences of any breaches of this policy;
- Reference to other policies, such as whistleblowing and safeguarding children policies.

Policy Statements

Education & Training – Staff

It is essential that all staff receive e-safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal e-safety training will be made available to staff. All new staff should ensure that they fully understand the school e-safety policy and Acceptable Use Policies
- This E-Safety policy and its updates will be presented to and discussed by staff in staff/team meetings/INSET days.

- The E-Safety Coordinator will provide advice/guidance/training as required to individuals as required

Training – Directors should take part in e-safety training/awareness sessions. This may be offered in a number of ways:

- Attendance at training
- Participation in school training / information sessions for staff or parents

Technical – infrastructure / equipment, filtering and monitoring. The school will be responsible for ensuring that the school infrastructure/network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their e-safety responsibilities:

- School ICT systems will be managed in ways that ensure that the school meets the e-safety technical requirements.
- There will be regular reviews and audits of the safety and security of school ICT systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school ICT systems. Details of the access rights available to groups of users will be recorded by the Network Manager and will be reviewed, at least annually.
- All users will be provided with a username and password by the ICT Technician who will keep an up to date record of users and their usernames.
- The “administrator” passwords for the school ICT system, used by the Network Manager must also be available to the Headteacher or other nominated senior leader and kept in a secure place
- Users will be made responsible for the security of their username and password, must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- The school maintains and supports the managed filtering service provided.
- In the event of the Network Manager needing to switch off the filtering for any reason, or for any user, this must be logged and carried out by a process that is agreed by the Headteacher.
- Requests from staff for sites to be removed from the filtered list will be considered by the Network Manager, e-safety co-ordinator and Headteacher. If the request is agreed, this action will be recorded and logs of such actions shall be reviewed regularly
- School ICT technical staff regularly monitor and record the activity of users on the school ICT systems and users are made aware of this in the Acceptable Use Policy.
- An appropriate system is in place for users to report any actual/potential e-safety incident to the Network Manager.
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, hand held devices etc from accidental or malicious attempts which might threaten the security of the school systems and data.
- An agreed policy is in place regarding the extent of personal use that users (staff/students/pupils/community users) and their family members are allowed on laptops and other portable devices that may be used out of school.
- An agreed policy is in place regarding the use of removable media (e.g. memory sticks/CDs/DVDs) by users on school workstations / portable devices.

- The school infrastructure and individual workstations are protected by up to date virus software.

Curriculum E-safety should be a focus in all areas of the curriculum and staff should reinforce e-safety messages in the use of ICT across the curriculum.

- in lessons where internet use is pre-planned, it is best practice that students/pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where students/pupils are allowed to freely search the internet, e.g. using search engines, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics that would normally result in internet searches being blocked. In such a situation, staff can request that the Network Manager can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.
- Students/pupils should be taught in all lessons to be critically aware of the materials/content they access on-line and be guided to validate the accuracy of information
- Students/pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet.

Use of digital and video images - Photographic, Video The development of digital imaging technologies has created significant benefits to learning, allowing staff and students/ pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff and students/pupils need to be aware of the risks associated with sharing images and with posting digital images on the internet. Those images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate students/pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Staff are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital/video images that students/pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Students/pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include students/pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Students'/Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.

- Student's/Pupil's work can only be published with the permission of the student/pupil and parents or carers.

Data Protection Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

Staff must ensure that they:

At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.

- Use personal data only on secure password protected computers and other devices, ensuring that they are properly "logged-off" at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When using communication technologies, the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Staff and students/pupils should therefore use only the school email service to communicate with others when in school, or on school systems.
- Users need to be aware that email communications may be monitored • Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any email that makes them feel uncomfortable, is offensive, threatening or bullying in nature and must not respond to any such email.
- Any digital communication between staff and students/pupils or parents/carers (email, chat, etc) must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or public chat/social networking programmes must not be used for these communications.
- Students/pupils should be taught about email safety issues, such as the risks attached to the use of personal details. They should also be taught strategies to deal with inappropriate emails and be reminded of the need to write emails clearly and correctly and not include any unsuitable or abusive material.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Responding to incidents of misuse.

It is hoped that all members of the school community will be responsible users of ICT, who understand and follow this policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse. Listed below are the responses that will be made to any apparent or actual incidents of misuse:

If any apparent or actual misuse appears to involve illegal activity i.e.

- child sexual abuse images
- adult material which potentially breaches the Obscene Publications Act
- criminally racist material
- other criminal conduct, activity or materials

The Headteacher will take appropriate action, informing official channels.

Staff (and Volunteer) Acceptable Use Policy Agreement

School Policy New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of ICT in their everyday work.

The school will try to ensure that staff and volunteers will have good access to ICT to enhance their work, to enhance learning opportunities for students/pupils learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that students/pupils receive opportunities to gain from the use of ICT. I will, where possible, educate the young people in my care in the safe use of ICT and embed e-safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the ICT systems, email and other digital communications.
- I understand that the rules set out in this agreement also apply to use of school ICT systems (e.g. laptops, email, etc) out of school.
- I understand that the school ICT systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will be professional in my communications and actions when using school ICT systems:
- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.

- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and/or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital/video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (eg on the school website) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use chat and social networking sites in school in accordance with the school's policies.
- I will only communicate with students/pupils and parents/carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

When I use my personal hand held / external devices (PDAs/laptops/mobile phones/USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.

- I will not use personal email addresses on the school ICT systems.
- I will not open any attachments to emails, unless the source is known and trusted, due to the risk of the attachment containing viruses or other harmful programmes.
- I will ensure that my data is regularly backed up.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Data Policy. Where personal data is transferred outside the secure school network, it must be encrypted.
- I understand that data protection policy requires that any staff or student/pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of school:

I understand that this Acceptable Use Policy applies not only to my work and use of school ICT equipment in school, but also applies to my use of school ICT systems and equipment out of school and my use of personal equipment in school or in situations related to my employment by the school.

I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Directors and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

Staff
